Wynwood - Main Lobby

IMTIAZ
DEVELOPMENTS

- 
- The image shows a modern interior space, likely a library or a study area. The most prominent feature is the curved ceiling, which is made of natural timber and has built-in display shelves. The shelves are filled with books and other items. Below the ceiling, there is a suspended communal table with comfortable chairs, designed for people to sit and work or study. The overall design is minimalist and functional, with a focus on natural materials and a curved, organic form. The lighting is soft and even, highlighting the textures of the timber and the arrangement of the furniture.
- 1 BESPOKE STRETCHED CEILING SKY DESIGN, TO CREATE ILLUSION, VISUAL APPEAL, AND MOOD ENHANCEMENT EFFECT
 - 2 CURVE CEILING MADE OF NATURAL TIMBER MATERIAL
 - 3 BESPOKE DECORATIVE LIGHINGS

LIKE A
CONTEMPORARY
WORK OF ART
INVERSO BY GESSI

The use of warm colours in the bathroom recharges vital energy.

Bronze projects wealth and refers to strength, growth and experience.

It is a colour that is widely appreciated in interior design, in all its shades, as it is associated with the idea of warmth and allows for a cosy atmosphere with an unconventional touch to be created.
