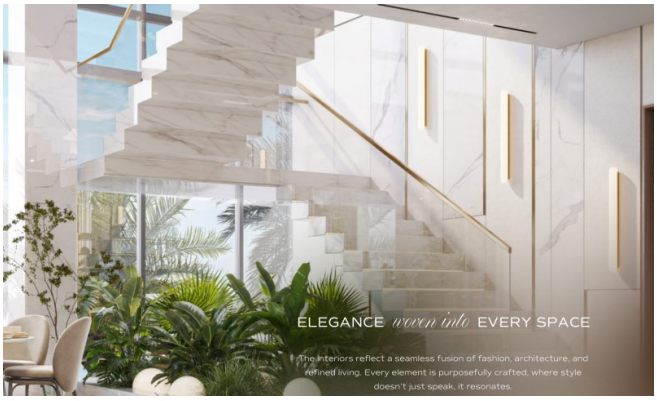
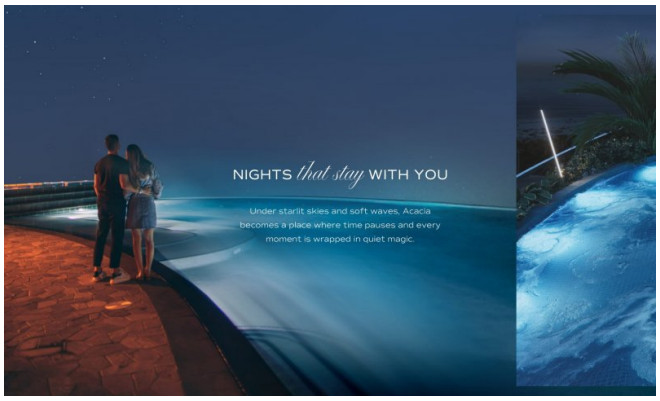
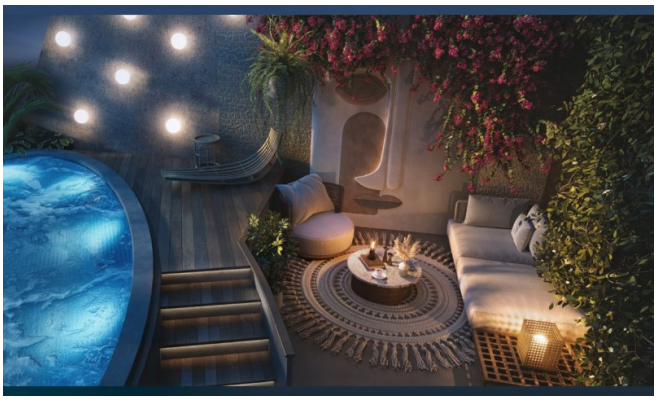
A STATEMENT in every SQUARE FOOT
Designed by the award-winning minds at Conin International, Acacia is a modern marvel that rises gracefully over 59.2 meters with a distinctive form: 2 Basements + Ground + 12 Floors + Lower Roof + Upper Roof. The façade plays with proportion, light, and shadow, embracing both ocean and landscaped views across its thoughtfully oriented wings. Natural ventilation, abundant daylight, and strategic planning ensure a harmonious rhythm to everyday living.

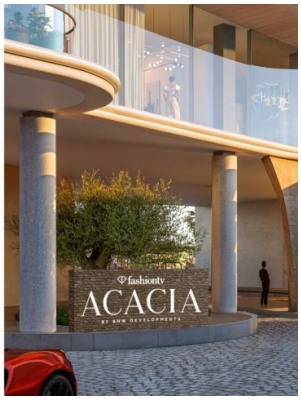






DESIGNED to BREATHE and BLOOM

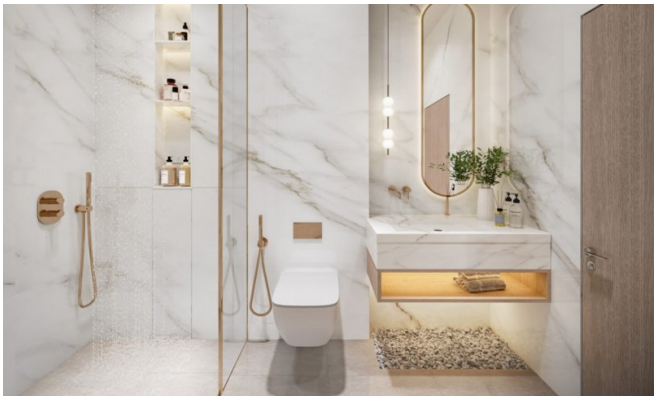
Acacia's spatial planning is more than just architecture, it's a philosophy of flow. Each floor is designed to optimise movement, privacy, and visual connectivity with the surrounding landscapes.



THOUGHTFUL design, SEAMLESS living

With purposeful planning for natural light and ventilation, Acacia is designed to breathe. High-speed elevators ensure smooth vertical movement, while intelligently zoned layouts create fluid transitions between social and private spaces.

Terraced heights enhance visual openness, and landscaped courtyards between wings encourage quiet connections with nature. Every element reflects thoughtful architecture, crafted for refined living, delivered with intentional grace.



VISUAL harmony. EVERYDAY luxury

From sun-drenched living rooms to moonlit terrace lounges, Acacia captures the poetry of space through refined design and immersive views. The interiors feature an aesthetic palette of clean lines and soft tones.

Whether you're hosting, unwinding, or simply in your element. Acacia creates moments that feel both cinematic and deeply personal.
